DETAILED ACTION

Applicant's arguments filed 1/31/06 have been fully considered but they are not persuasive. The response submitted by Applicant does not overcome the rejection made by Examiner in the last office action.

Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Samuelson (6,018,018) in view of Akkara et al.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Applicant's arguments are based on the claimed catalytic system in that the HRP of Samuelson reference is not active/stable between pH 0.5 and 4.

Said arguments have been fully considered but they are not persuasive since they are not commensurate in scope with the claims since the requirement for claim 1 is "combining an aromatic monomer with a hematin derivative" in that the open Markush term "combining" does not disclose any reaction between the claimed aromatic monomer and the claimed hematin derivative. That means the reactants have been put together in that neither reactants nor specific conditions such as pH---, have been claimed and the reactant do not have to be active to form the products.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
